

Corrigendum

Corrigendum to “Single-source precursor approach for the preparation of CdS nanoparticles and their photocatalytic and intrinsic peroxidase like activity”

[Appl. Catal. B: Environ. 126 (2012) 265–274]

We have identified an error in Fig. 3b in our published work “Single-source precursor approach for the preparation of CdS nanoparticles and their photocatalytic and intrinsic peroxidase like activity” [Appl. Catal. B: Environ. 126 (2012) 265–274]. We would like to correct the Fig. 3b as given below. The average diameter of the nanorod is about 6 nm and the length ranging from 20 to 110 nm.

The authors are deeply apologized for the inconvenience caused by them.
